PROFESSIONAL SUMMARY

Aspiring Cybersecurity Engineer pursuing B.Tech Information Technology with hands-on experience in cybersecurity, web development, Linux environments, AI-powered applications and freelance projects. Skilled in Python, React, FastAPI, Tailwind CSS and security fundamentals. Focused on building secure, scalable and user-centric solutions.

KEY SKILLS

Technical Skills: Python, JavaScript, React.js, FastAPI, HTML5, CSS3, Tailwind CSS, C, C++

Cybersecurity: Kali Linux, Network Security, Ethical Hacking Fundamentals, Security Monitoring, OWASP Fundamentals

Tools & Platforms: Git, GitHub, Linux, VS Code, Arduino IDE, ESP32

EXPERIENCE

Freelance Web Developer | 2025 - Present

- 1 Developed responsive websites for local businesses and startups using modern frontend technologies.
- 2 Worked directly with clients to gather requirements and deliver customized web solutions.
- 3 Built mobile-friendly interfaces and improved user experience across devices.

EDUCATION

Aalim Muhammad Salegh College of Engineering

B.Tech Information Technology | CGPA: 7.36 | Expected Graduation: 2028

CERTIFICATIONS

- Certified Ethical Hacking & Penetration Testing - Cappriosec University
- Social Engineering & Ethical Hacking - Cappriosec University
- Cloud Computing Internship - Zequin Technology
- Web Development Internship - LearnTechzo
- Prompt Engineering with GitHub Copilot - Microsoft & Simplilearn

PROJECTS

CyberShield: Built a cybersecurity monitoring platform for traffic analysis, threat visibility and security alert generation. (Python, Flask, Network Security)

SpeakerFlow AI: Developed an AI-powered English communication application using Dart, Python and FastAPI. (Dart, FastAPI, Python)

MPSD Trinity Technologies: Designed and developed a modern corporate website with internship and career modules. (React, Tailwind CSS, JavaScript)

Terminal AI: Created a terminal-based AI assistant to improve developer productivity through command automation. (Python, Shell)
